

To enable smarter farming for a better New Zealand —
Ka pūkekotia a rongomātāne, ka poho kererū a Aotearoa

COVID-19 reminds everyone how essential food needs essential fertiliser. Ravensdown's role as the farm nutrient and environmental experts has never been more relevant.

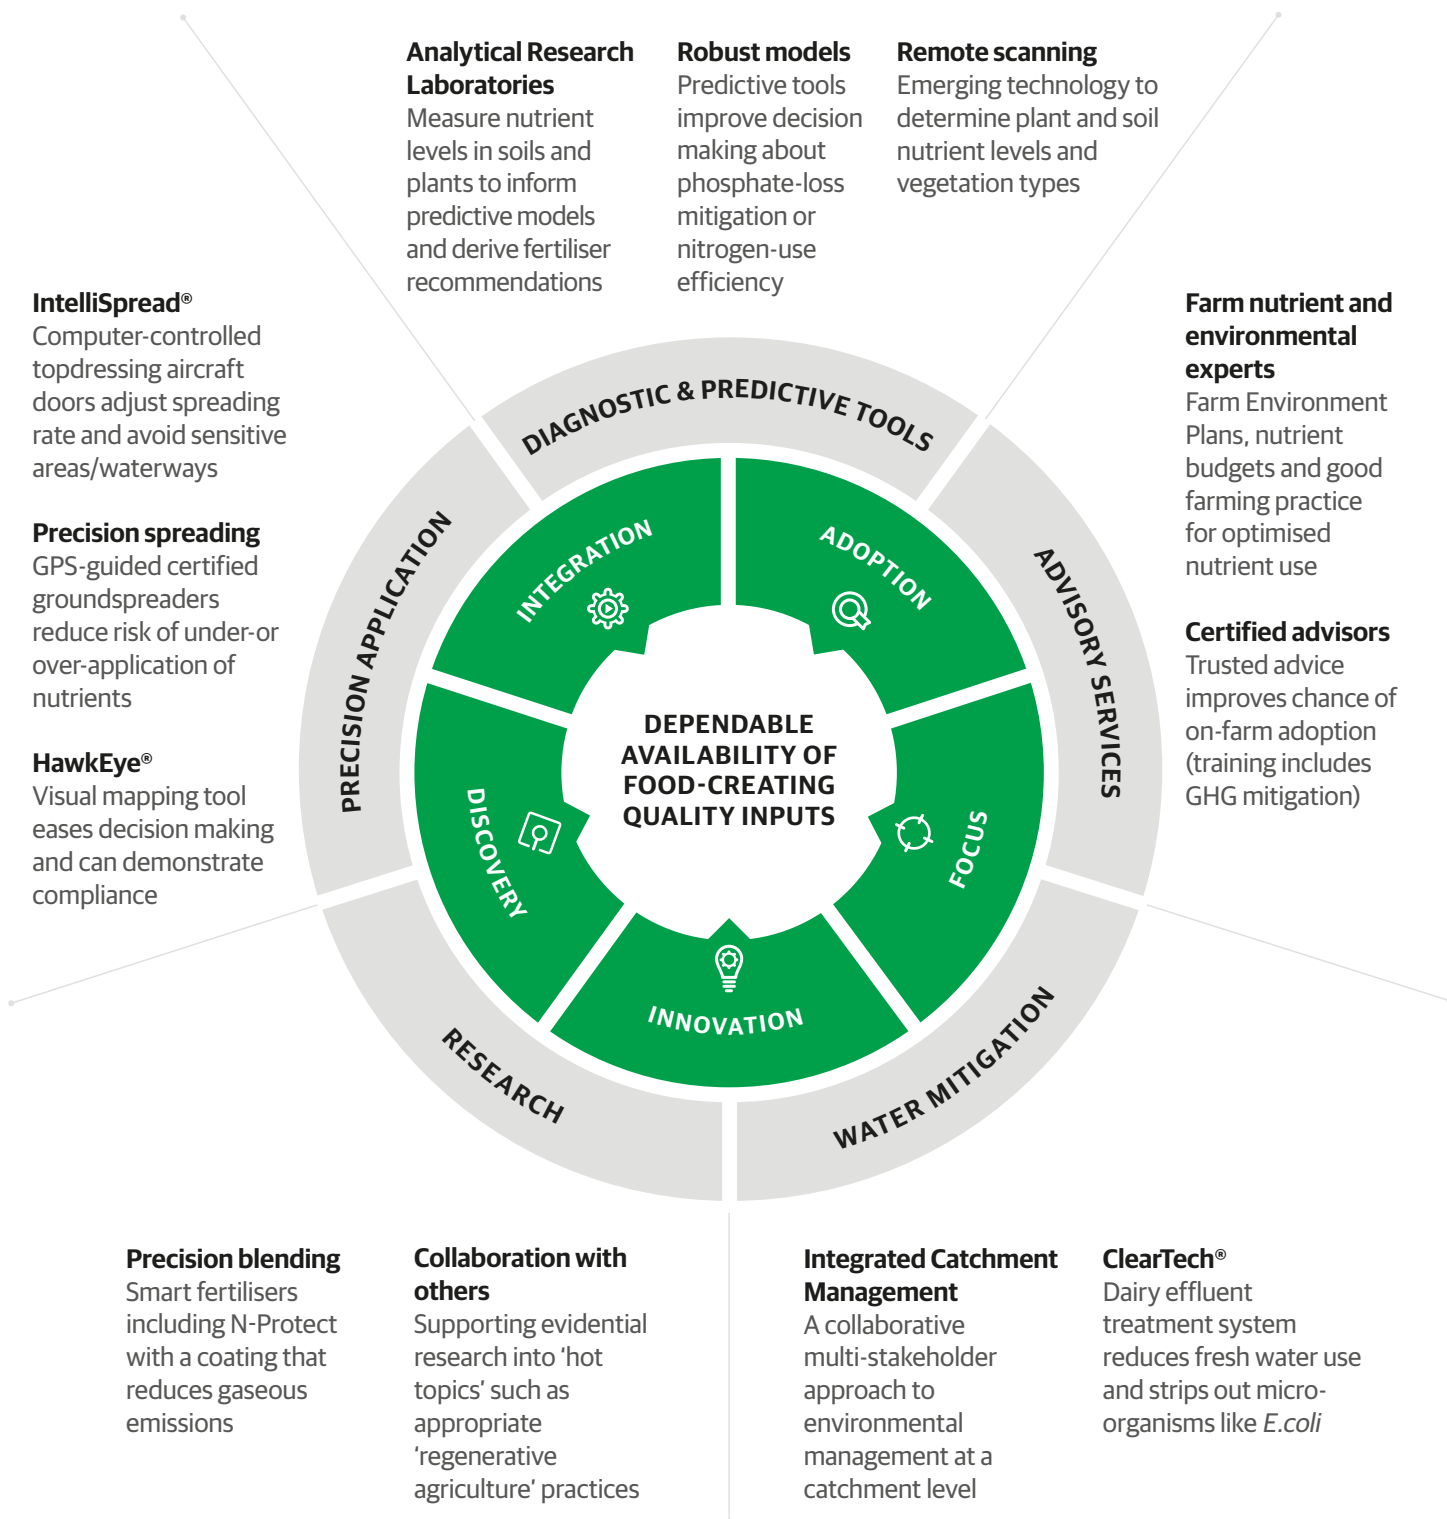

Ravensdown exists to enable smarter farming for a better New Zealand. Our products, expertise and technology help farmers reduce environmental impacts and optimise value from the land. Whether it's food grown for livestock or for humans, we are an integral part of the food creation process. We are the only cooperative on the planet that tests for, advises

about, buys, ships, stores, spreads, measures and maps food-creating nutrients and fertiliser in a truly integrated way.

As a co-operative, we are here to supply the right amount of farm nutrients to our customer-owners; not the largest. We also provide products and services in environmental mitigation, agronomy and animal health sectors. When it comes to the growing prosperity of New Zealand, stronger rural communities and a progressive, environmentally considerate agsector, Ravensdown is part of the solution.

MEETING THE CHANGING NEEDS OF CUSTOMERS

The importing, manufacturing and storage of nutrients is at the core of our essential supply service. Current and future solutions are geared around helping farmers optimise value from the land as well as reducing their environmental impact.
